SCHEME DESCRIPTION

Certificate of Lawful Development (Existing Use)

SERVICES

Certificates of Lawful Use

CASE STUDIES

Other Projects

Using a Certificate of Lawful Development to secure important visitor facilities.

The Castle wanted to make improvements to its visitor parking facilities. Its own application was refused (on the basis of harm to the green belt, local landscape setting and flood risk policy). A subsequent application for a Certificate of Lawful Use had also failed. A Breach of Condition Notice relating to an earlier permission was then served on the owners.
